

This is my 4 inch binder with a zipper and handle .

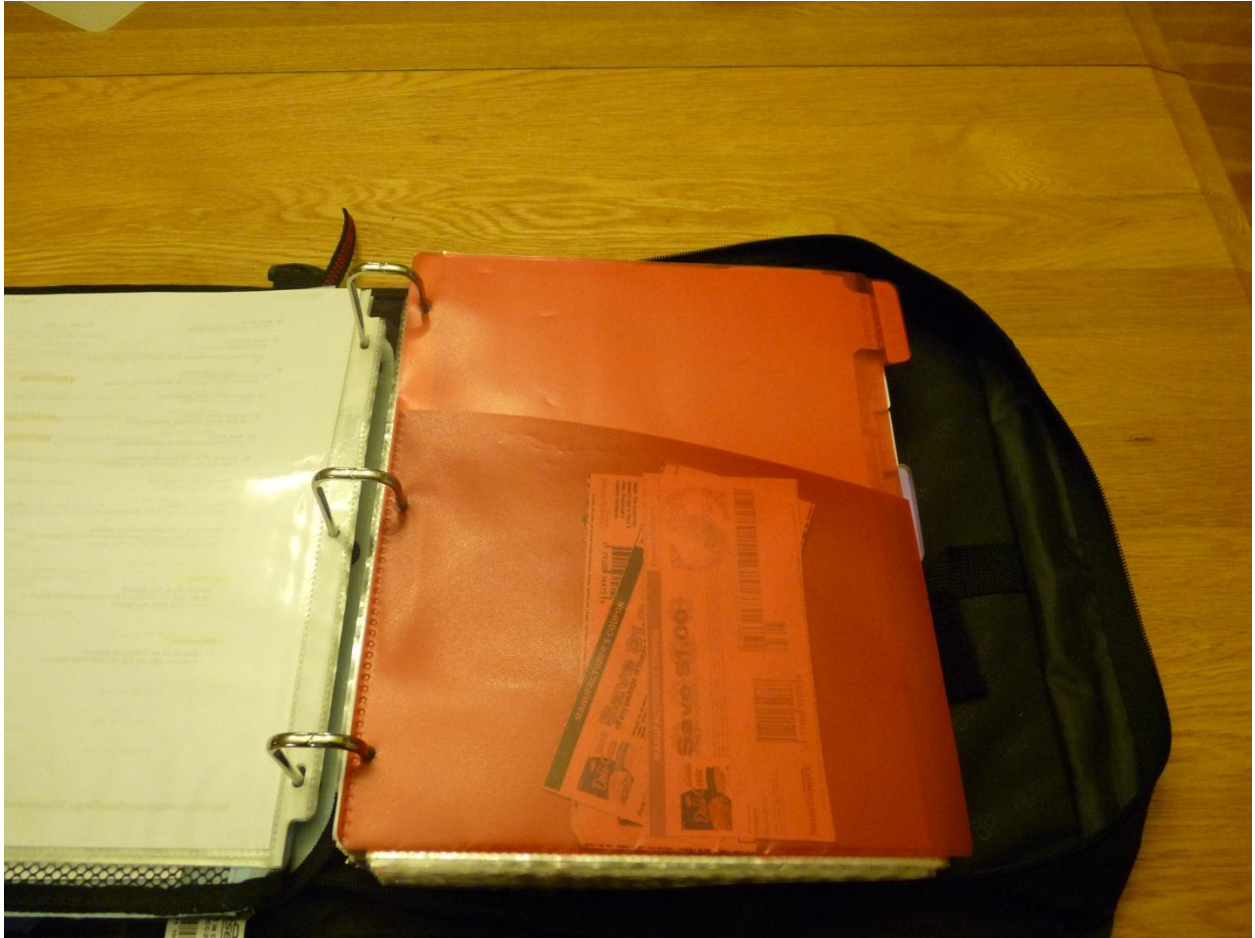

Front pocket to hold my envelopes

Accordion file to hold my weekly ads and store coupon policies

Page protectors to hold my FRY's Ecoupon list. I like to have this with me at the store because I use it every time. I also use a dry erase marker to mark the ones I will use as I am shopping and then just wipe it off when I get home.

I have 3 of these plastic divider folders for my 3 main categories of **GROCERY, HOME CARE & PERSONAL CARE**. I also use the folder part to store my rain checks or coupons I had pulled for the store that I didn't use and need to file when I get back home.

Dividers

Coupons in baseball card holders. I have them filed by category and then by sub-categories. I cut coupons on Sunday or Mondays and file them. Does not take long now.

I use these plastic envelopes for my coupons when I go shopping. I put in the blue one all my coupons that I have prepared for my grocery trip and then as I am shopping and I put the items in the cart I take the coupons from the blue and put them in the black. Just easier for me.
